Welcome to Eastham

IN his book, "The Outermost House", Henry Beston described his feelings about our town when he wrote: "Outermost cliff and solitary dune, the plane of the ocean and the far bright rims of the world; meadow land, and marsh, and ancient moor; this is Eastham; this is the Outer Cape". So you too can stand on the "solitary dune", and gaze across to "the far bright rims of the world". Those of us who call Eastham our home, welcome you, our visitors, and hope that you too can enjoy Eastham as we do and as Henry Beston did.

For your information about Eastham. It was settled by a handful of people from Plymouth in 1644 and incorporated in 1651. At this time Eastham included the areas now covered by the present towns of Orleans, Brewster, Harwich, parts of Chatham and Wellfleet. From the solitary dunes on the ocean side to the flat bayside . . . a distance of three miles across . . . it covers an area of a little more than 14 miles. It has a population of 3,059, and like all towns on the Cape it has a town meeting form of government, with elected Selectmen (three) at the helm. Tax rate last year was \$14.30 per thousand; a grand list of \$166,399,810.00 total assessment, which produced in revenue to the Town, a total of \$2,379,517.28.

Recommended: Before going out in a boat, do what this man is doing . . . check your gas and your tides among the items mentioned below. Low tides in the marshes are extremely treacherous . . . to be caught out there without gas when the tide recedes may be most uncomfortable. It is a long way back pulling your boat thru the mud of the marsh.

IMPORTANT INFORMATION

Small Boat Suggetions

Before going out in a small boat of any kind . . . **CHECK THE WEATHER.**

The law requires that a small boat regardless of size, when driven by a motor, including an outboard motor, must have aboard a life preserver or a buoyant cushion for each person (including children) on board. There is a fine of \$100 for both owner and occupant.

A Short History of the Oyster Industry

by PHIL SCHWIND

IN November of 1970, a sort of hysteria overcame a large segment of the population of Eastham. That first Sunday may go down in history as the day of the oyster ruckus. Nearly a hundred people armed with licenses, boots, scratchers, buckets and high hopes assembled on the south shore of the Salt Pond by 7:30 in the morning. Someone said, "There's only one person in town who could get half the population up, dressed, and waiting on the shore so soon after sunrise."

He was referring to me, Shellfish Constable. But it wasn't my fault, really, it was the oysters. All I had done was to make available the first oysters the town had raised in something like 12 years, the oysters which were a surplus of those we are experimenting with, trying to raise breeding stock so the town may grow a reasonable supply of oysters in the years to come.

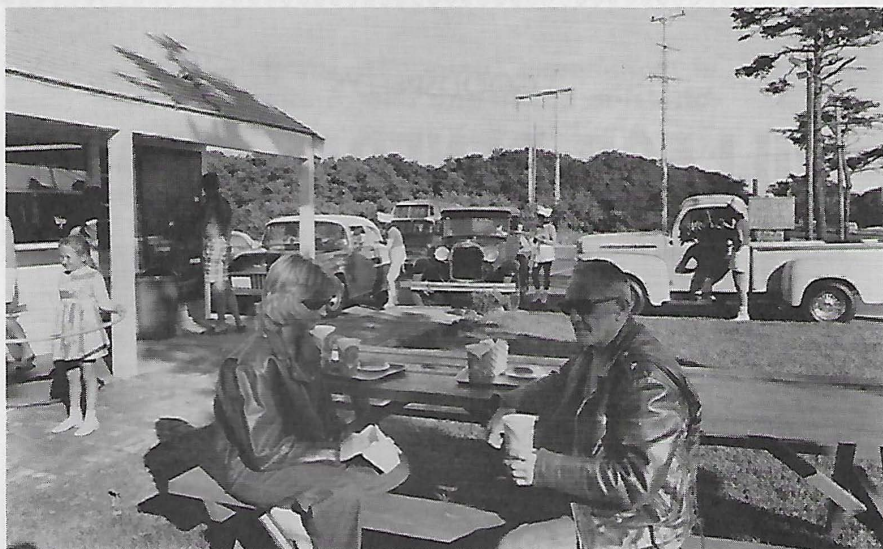

Oysters were found in great abundance on the flats at the time of the first settlement in 1620, "but by 1769 the inhabitants had so increased and oysters were taken in such great quantities" for home consumption and for the Boston, Salem and Portland markets that it became necessary to prevent their entire destruction, for the district to take measures to preserve and propagate them. Permits were issued, the amounts and months of taking were controlled. In spite of these controls in 1770, the Reverend Enoch Pratt says, "all the oysters in the bay died. What caused it is not certainly known, but it is supposed that at this time a large number of blackfish died and came ashore where their carcasses remained producing a very filthy condition which caused this mortality."

Later authorities place the time of the disappearance of the oysters in this area in 1775 and lay the blame on over fishing, particularly of the large breeding stock, and on the taking of shells needed to catch oyster seed or spat to be made into lime for fertilizer for their fields and plaster for their homes.

In 1775 Eastham chose a committee to join with one from Wellfleet to propagate the growth of oysters in the bay. Inhabitants of the town tried the experiment of bringing in adult oysters and laying them down on the flats which succeeded well. Within a year they doubled in size and their quality was much improved. This became big business and by 1844 the number of bushels which were brought in annually was about 60,000.

(Here the oyster business of Wellfleet and Eastham becomes so entangled it is impossible to unconfuse it. Much of the ground used is in Eastham, but most of the men came from Wellfleet.)

In 1876 the first attempt to raise oysters from seed is said to have been made by E. P. Cook. He went to Somerset, Mass. and bought 500 bushels and planted them.

THE BROWNS

SALT POND, EASTHAM, 1979

It looks as though it might be a bridge across the pond. Or perhaps it's a seagull rookery or feeding station for migrating birds. Actually, it isn't any of those, but rather a hopeful effort to produce more shellfish in Eastham. What we are referring to is the string of floats, rafts and what-have-you, that lies in Salt Pond.

Hanging below the styrofoam floats that you see from the shore are trays containing a variety of shellfish ranging from oysters to blue mussels, quahogs (hard shell clams), scallops and steamers (soft shell clams). They all have one thing in common—they are all babies, growing as fast as they can in our "nursery". The reason that they are there is because the growing conditions in Salt Pond, things like food, salinity, temperature, shelter from storms, are near perfect for them and they take full advantage of the season.

Most of the rafts contain young quahogs. In the spring, they are delivered to the pond from a hatchery when they are about as big as a pea, age four months. Up to one hundred thousand are given a home in sandboxes hanging from the rafts. By the following spring they are over an inch in length and ready to be transplanted to the rest of the marsh. In a short time they will reach a legal size of two inches and be ready for your table.

And so it is with the other beasts living under the rafts. Some are brought to us from hatcheries, others are bestowed on us by Mother Nature. The nursery protects from predators the young in the early stages of their life when they are most vulnerable, and provides us with one more step toward the future of our shellfish resources.

For you to take advantage of today's resources, first stop at the Town Hall and purchase a shellfish license. Then fetch your scratcher, pail and family helpers and dig up some supper. Salt Pond is open on Sundays only as listed in the schedule below. The rest of the town is open all the time except as posted. You'll be glad you did.

In spite of the growing price of shellfish seed, Eastham has managed to keep their license fees at a minimum: for non-commercial shellfisher-

men: \$4 for a tax payer; \$6 for a family renting in Eastham; and for non-resident, non-renting visitors \$10. These fees are for an entire family and permit the taking of one level 10-quart pail of any and all kinds of shellfish per week all year. (Excepting scallops, for which special regulations are written each year.)

Non-commercial shellfish on Sundays only. Sundays not listed here the Salt Pond is open for non-commercial shellfishing all day.

Areas in Salt Pond open only as posted at Town Landing. All other areas in Eastham open at all times between sunrise and sunset unless otherwise posted. All sedge grass areas closed to all shellfishing.

Times listed here Daylight Saving Time.

Limit: one LEVEL 10-quart pail per family per week.

The Captain Penniman House, home of one of Eastham's whaling captains. It is easy to understand why Edward Penniman, a well traveled whaler, selected this spot for his home. The Fort Hill area, where this house stands, has one of the most beautiful views on the Cape. Here again one might visualize Champlain's encounter with the Nauset Indians, large farms covering the rolling fields, and the salt works along the edge of the bluff, producing the much needed salt during the Revolution and the war of 1812. At this time only the exterior has been restored, and may be viewed along the self-guided Fort Hill Trail. This one and a half mile trail guides you thru many years of history, and is combined with the Red Maple Swamp which tells the story of nature in all its stages.

CHURCH SERVICES

(More than three hundred years—in 1672 to be exact—Samuel Treat became the town's first minister, and thundered his message of hell-fire and damnation. As a historian of the times declared: "his voice was so loud when speaking it could be heard at a great distance from the meeting house, even in the midst of the winds that blew over the plains of Nauset".)

Perhaps not in the thunderous tones of Mr. Treat, yet the church leaders of the present preach their religious philosophies with the same zeal. The following churches are within easy travelling distances:

EASTHAM

United Methodist—the House of worship and strength by the side of the road, Route 6. Rev. John Knight, pastor. Worship service is conducted at 9 a.m. with Sunday School and nursery care provided. Bible study every Tuesday at 10 a.m. during the school year. Communion is offered the first Sunday of each month.

CAPE COD. This portion of Massachusetts is an L-shaped peninsula reaching out into the Atlantic Ocean. It is about 65 miles long from Nantucket Sound north to Cape Cod Bay and is from one to twenty miles wide. It is low and sandy, with numerous cranberry bogs. At the head of the Cape are pine and oak woods. On many of the harbors are picturesque fishing villages. Some of them have become art colonies. Provincetown, Hyannis, Chatham, and Barnstable are favorite summer resorts. In the rural districts people earn their living by raising cranberries, strawberries, and poultry.

The Cape Cod Canal was opened across the neck of the peninsula for 7.6 miles in 1914. It joins Cape Cod Bay with Buzzards Bay, saves 70 miles in the voyage between Boston and New York, and permits vessels to avoid the shoals of Nantucket. The United States government purchased it in 1928 for 11½ million dollars as a link in the Intracoastal Waterway. In 1935 construction began in enlarging the canal to a depth of 32 feet and a width of 540 feet. Including its channel approaches, the canal is 17.4 miles long. Two highway bridges and a railroad lift bridge span the canal.

EASTHAM WEATHER (as compiled by Cape Cod Chamber of Comm.)

We in Eastham are fortunate regarding our weather. Situated between the Atlantic Ocean and Cape Cod Bay, the stabilizing effect of both bodies of water tend to keep Eastham cooler in the summer and warmer in the winter than the mainland, or for that matter most of the Upper Cape.

Those Great "Do-Nothing-Days"

Under the watchful eyes of the lifeguards (in white helmets) swimmers challenge the surf at Coast Guard Beach, one of the favorite swimming areas in the National Seashore.

Eastham Visitor's Activity Index

AREA ORIENTATION: Soon after you arrive, check in at the Eastham Town Hall on Rt. Six in the center of town. Here information is available about fishing licenses, beach parking permits, fire permits for beach cookouts, boat mooring permits at the Eastham Marina at Rock Harbor. Get acquainted with town officials, including the police and fire departments. Leave your name and address so that you can be reached in an emergency.

On Rt. Six, going towards Orleans is the town operated Information Booth, staffed with qualified personnel who can help with information about available cottage space, where to eat, location of gift shops, etc.

The Visitor Center of the National Seashore Park is a must and is located just off Rt. Six a few hundred yards north of the Town Hall.

SWIMMING, SURFING AND SUN BATHING (for those great "do-nothing" days)

Eastham is rich in sources for such activities . . . the ocean, the bay and the fresh water ponds. Those who prefer surfing and the robust challenge of the sea with its colder water, can enjoy the Coast Guard and the Nauset Light beaches, both within the jurisdiction of the National Seashore with its life guards and bath-houses. Each beach has a "surfing" section reserved. For warmer water and family type beach activities, the five bay beaches offer safe bathing and where you can walk out several hundred feet without getting your head wet. First Encounter and Cook's Brook beaches have restroom facilities. Parking stickers can be obtained at the Town Hall. Fresh water bathing can be enjoyed at several town ponds, featured by Wiley Park on Great Pond, off Herring Brook Road (see map) where a bathhouse and Picnic Area are located. Swimming and Life Saving classes under competent instructors are also held here. (Check story on Rec. Activities) Herring Pond, off the road by the same name, is also a popular spot.

FISHING AND OTHER SPORTS FACILITIES:

Tennis courts are available on a first come first served basis at the Eastham Elementary school

grounds on Schoolhouse Road, and at the Nauset Regional High School grounds off Cable Road, North Eastham, and at the town courts in Orleans, near Eldridge Park. A teen age recreational program under trained leadership is held daily at the Nauset High grounds. (Check schedule of Recreational Activities program.)

The area abounds in golf courses, both public and private. Check the Yellow Pages for details. Some of the nearby courses . . . with a few miles radius are: Brewster, Bass River, Dennis Pines, Harwich Municipal, Blue Rock in South Yarmouth, Harwich Port Country Club, Highland Golf Course in Truro, Eastward Ho in Chatham.

Surf casting and fresh water fishing abounds in the area, and charter fishing boats leave daily from Rock Harbor, Provincetown and Wellfleet . . . all within a few minutes ride from Eastham. On Sundays, those with licenses can dig for quahogs (see Sunday schedules on page 15) and the Nauset Marsh, Town Cove or the Bay Side can be explored for shellfish at low tide.

The **Nauset Rod and Gun Club** of North Eastham has facilities for those interested in rifle, or skeet shooting.

Eastham hosts an active **Little League Baseball** program centered around the attractive field behind the Town Hall. Cape Cod's famous NCAA sponsored Baseball League featuring outstanding college players is represented locally by the Orleans Cardinals, and large crowds watch exciting baseball games, evenings, at Eldridge Park, in Orleans.

Ice skating enthusiasts will find excellent facilities at the Rees Rink off Eldredge Parkway in Orleans, or at the Cape Cod Coliseum off Route Six in So. Yarmouth.

Summer theatre is here all summer . . . try the Dennis Playhouse, the Monomoy Theatre in Chatham, The Arena Theatre in Orleans, and the Cape Cod Melody Tent in Hyannis to mention a few. Wellfleet, just North of us, has a well operated Drive-In theatre.

The **Audubon Society**, off Route Six, in Wellfleet, offers bird tours and nature hikes and Dune Buggy rides.

INDIAN SUMMER: We invite you to visit us in the summer, but many, many people prefer

The Red Cedar Swamp Trail approaching the Penniman House, in the Fort Hill area of the National Seashore. In the distance, still unseen, the thunderous beat of the Atlantic surf may be heard . . . as it pounds the fragile dunes of the Outer Beach.

Eastham in the late fall, when we think the Cape is at its best. Little or no traffic, uncrowded beaches, ample restaurant and gift shop facilities . . . and best of all, the weather is ideal . . . and THE PRICE IS RIGHT. Most cottage colonies and motels feature reduced rates. Check with them before leaving the Cape in the summer. Plan a return visit . . . when everything, including the PRICE IS RIGHT.

Along the bicycle trail from the Visitor's Center to the Coast Guard Beach area. . . This magnificent hiking and biking trail meanders from the Visitor's Center to the ocean, passing thru the Cedar Banks and on over the Great Marsh, where in the proper season the blue heron and flying wedges of Canadian geese vie with the terns and gulls for vantage points.

Eastham prides itself on its excellent recreation program supervised by its Director, Leo Miller, and sponsored by the Eastham Recreation Commission. The fine sports facilities of the Nauset Regional High School, located on Cable Road off Nauset in North Eastham are available to local as well as summer youngsters from ages 7 to 16.

The Playground Program: for boys and girls ages 7 to 16 runs Monday thru Friday 9 am to 12 noon, starting late June and ending late August. Registration anytime for competitive sports, low organized games and special events.

Tennis Instruction & Competition: for playground participants will be available at the Nauset Regional High School on Monday and Wednesday 9 am to 12 noon, for “teen agers” on Monday and Wednesday evenings from 6:00 to 7:30 pm. Adult instruction is not available at anytime. The courts are open to the public unless used by the Recreation Department on a first come first serve basis with a gentleman’s agreement that no one stays on for longer than one hour if others are waiting.

Swimming Program: Red Cross classes for Beginners, Intermediates, and Swimmers, Jr. and Sr. Life Saving and Water Safety Aids will be available at Wiley Park, off Herring Brook Road, Monday thru Friday 9 am to 1 pm, starting June and ending August. Registration on Monday Only for 2 week periods.

EASTHAM PUBLIC LIBRARY

Our Public Library has one of the loveliest locations in town. It is located on Samoset Road just west of the Windmill and overlooking Long Pond. There is a convenient off-street parking area behind the library.

The original building was built in 1897 by the Village Improvement Society (which explains the inscription over the library door) and was given to the town in 1903. During 1976 the Trustees published a short history of the library, written and researched by Helen Schwind. Copies of this history are still available at the library.

Librarian Jane Eldridge will be happy to help you make a selection from among the current books or from our excellent Cape Cod collection. Genealogists will find a wealth of material here, and children, of course, get special attention. Check the local papers for story hour times, Mimsy puppet shows, & Film Programs.

All are welcome to use the library facilities. For Massachusetts residents or Eastham tax-

payers there is no charge; for other visitors, we ask a small fee for a temporary card.

I'll never forget the day I was fishing with my brother at the Wellfleet Dock one summer day. We were sitting beside a native Cape Codder who was passing away the time with his thoughts when suddenly he was approached by a summer vacationist. "Going to clear up?" asked the visitor. "Always has" said the native. The visitor couldn't let the conversation die off, so asked another question. "Lived here all your life?" The native still didn't look up and answered. "Not yet."

THE MILLER EXPOUNDING

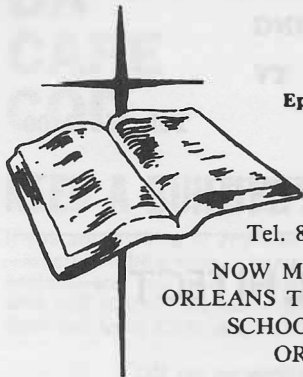

The wheels go round and round and the flour comes out here, explains Miller James Owens to interested visitors. This windmill, one of the most photographed objects in this area, is considered to be the oldest workable grist mill on Cape Cod. Tradition says it was built in Plymouth in 1793, dismantled and brought across the bay on a log raft to Truro, and a few years later, probably in 1797, taken apart and brought over the road to Eastham, where it was set up on its present location on the Green.

Our Ministry To Serve

One of the benefits of a cold, icy winter season is the turnover of sand on the clam flats, something which helps a great deal to promote good setting of clams and quahogs in years to come. Such a winter condition was experienced two years ago, and the fruits of the ice's work are now ready to be harvested. Soft shell clams and quahogs are abundant throughout the Nauset Marsh.

Together with the ongoing progress of transplantation of seed stock and nursery techniques with rafts and protective enclosures, a large variety of shellfish is available to the recreational digger.

With this abundance of shellfish, it is extremely important to remember the basic rules of good management: No shellfish are to be taken which are less than two inches long, all seed is to be replanted, and holes filled in, and no shovels or spade-type digging tools are to be used. This last regulation is to avoid breaking clams in the sand behind the shovel when pressure is put on the handle. It is easy enough to help a small clam survive by placing it in the sand, neck up and just deep enough so that its neck can reach the tide waters. Next summer that clam may be ready for your steamer.

The Eastham Historical Society proudly offers a tour of the Swift-Daley House on Wednesday and Friday from 2 P.M. to 5 P.M. during July and August. Admission is \$1.00.

With its "borning room" and "mourning room", the life style of early Cape Cod residents is depicted, the furnishings being authentic. This full Cape house was built in 1741; its restoration was accomplished through the efforts of Mr. and Mrs. Raymond Daley who deeded it to the Eastham Historical Society.

It is just possible that exhibits of either antique hand made quilts or hooked rugs might be in progress for your enjoyment.
